## Construction Product Regulation (CPR)

### QPSL Products and CE Marking Explained

on the 1<sup>st</sup> July 2013 as part of the Construction Product Regulation (CPR) it will be mandatory for all construction products that fall within the scope of a harmonized European standard (hEs) to display CE marking.

QPSL have been in consultation with the BSI who have confirmed to us that as far as Dacatie Insulated Cavity Closers and Quantum Flooring Accessories are concerned, there are no mandatory requirements covering our products which would require CE marking to be undertaken. The BSO's comment were that QPSL products are components.

We are given to understand that neither of these two product categories are listed in the Harmonised Standard listings, or Annex ZA. Therefore we are advised that CE Marking is nor possible.

If you require any further details please e-mail
