REACH, RoHS and WEEE Regulations

About REACH

REACH (Registration, Evaluation, Authorisation and Restriction of Chemicals) is an EC Regulation that has direct effect in the UK. It came into force on 1st June 2007 and replaced a number of European Directives and Regulations with a single system for registering, evaluating, authorizing and restricting chemicals. The duties of relevance are summarised below:

In June 2019 the European Chemicals Agency (ECHA) continued their expansion of the Candidate list of Substances of Very High Concern (SVHC), bringing the total to 207 substances. Please note that new substances are added to the REACH list every year. This legislation is reviewed by Quantum Profile Systems Ltd periodically.

The full Candidate List (SVHC) can be viewed on the ECHA website at:

<https://echa.europa.eu/-/ten-new-substances-added-to-the-candidate-list>

REACH registration duties

REACH requires companies that place "articles" on the market comply with certain duties, one of these is that any supplier of an article containing a substance meeting the criteria in Article 57 and identified in accordance with article 59(1) in a concentration above 0.1% weight by weight (w/w) shall provide the recipient of the article with sufficient information, available to the supplier, to allow safe use of the article including, as a minimum, the name of that substance. This duty is contained in article 33 of the REACH text.

QPSL Compliance

We can confirm that all Quantum Flooring extruded products:

- Do not contain any substances classified as Substances of Very High Concern (SVHC) at a concentration greater than 0.1% and as such are currently classed as REACH compliant.
- Use materials that comply with the RoHS Directive 2011/65/EC and the WEEE Recast Directive 2012/19/EU.
- Do not contain any substances classed as Hazardous under the Dangerous Substance Directive 1967/548/EC.
- Use materials that are classed as non-hazardous and therefore outside the scope of the Dangerous Preparations Directive 1999/45/EC.
